

Log into the system at <https://app.iconik.io/login?next=/search> with the username and password provided.

Select the Search icon in the upper left corner of the screen.

To search for your clip, you can filter the collections by any combination of guest names, air dates, and in the transcribed text. You can also narrow down the search by looking into one of the specific collections. The Late Late Show contains a limited amount of footage from David Kilborn, Tom Snyder and Craig Ferguson. If you do not find what you are looking for, please contact us at sales@media-mine.com.

Once you have selected an episode from your search list, you can search the transcriptions to find the scene you are looking for. Just click on the play icon to play the scene.

You can use the “Mark In” and “Mark Out” icons to capture the time codes you wish to license. In this example, the codes are: 01:42:31 to 01:45:23 from LS_2141_NTSC_3-22-2004.mov

The file name gives you the episode number (2141) and the airdate (22 March 2004).

Provide the timecodes and the episode details in the licensing request that was emailed to you.

For further information, see the demonstration video <https://youtu.be/vxSnDAa2Gxw>
